or step-out
with ease
and safety

1 Recline
in luxury

The Stirling features twin-motors
for independent control of the
seat back and foot rest

2 Stand
in safety

3 Sit in
comfort

Take a load off your mind as well as the weight off your feet with the **STIRLING** Rise 'n' Recline Chair.

Not sure about which recliner chair is right for you?

You can rest assured with the new Stirling Rise 'n' Recline Chair you're buying a product of real quality, craftsmanship and comfort from a company with years of experience. Made using nothing but the finest materials and components we guarantee your complete satisfaction.

It's the touch of luxury and serenity we all deserve at the end of the day!

The Stirling makes sure you make the most of 'You Time' – so snooze away, relax, reflect or just watch TV in real comfort.

Being comfortable is good for your health too – it aids circulation and eases the pressure and discomfort of muscular pains, stiff joints and aching backs. Having the facility to recline and raise ones feet is also very beneficial for numerous ailments and being able to adjust the angle of the backrest also aids respiratory problems and breathing difficulties.

Whether you're choosing a recliner because of a medical problem or just because you want to spoil yourself with the comfort of sheer luxury, our range offers an excellent investment in your own well-being.

- Craftsman made in our very own factory in the UK
- Adjustable back and footrest
- Generous padding throughout
- Covered in soft yet hard-wearing material

The Rise of Powered Recliners

Many people are turning to Powered Recliners because of the independence they allow. The tilt position brings you effortlessly to a standing start with absolutely no physical effort.

Risers give you all the benefits of a manual recliner without the need for assistance when getting out of the chair and the easy-to-use handset puts you in complete control.

You can also adjust the footrest and recline actions at the touch of a button to the exact position you require. For example many customers like the footrest only raised in what they call the 'TV watching position'.

It's this ease and flexibility that make a Powered Recliner the choice for real comfort and safety for thousands of people just like you.

Easy to use push button handset

“Life’s so much more enjoyable now!”
